### **To our amazing BC Family,**

During these unprecedented times, we first questioned whether the studio could survive. But that thought was quickly pushed aside with the positive energy and determination that dancers are known for. With the creativity and teamwork of all our teachers, we created a Virtual Studio to keep our dancers moving until we could learn a whole new world of technology. Dancers are creatures of habit who spend hours in a dance studio and not in front of a screen. We move to perfect our craft. When our studio was taken away, so was our daily habit of moving and dancing. But thanks to technology, we were able to keep dancing and that we did! Every day, our teachers logged on to see their dancers from the very youngest to the oldest. We smiled and laughed and DANCED! We continued to rehearse for a performance that would not be presented on a stage which is our favorite place to dance. We will never forget this time where we bonded even more and saw the amazing resiliency of our children! Thank you to every single student in this book for your dedication and perseverance; to every single staff member who went ABOVE AND BEYOND the call of duty; and most importantly, to the parents who assisted and made this Recital a reality for your dancer. To a younger person, a game usually is something that is done virtually on a phone or computer... How ironic that our Game Night Recital ended up being a Virtual Recital!

**With love and the greatest respect for you all,  
Kelly Lannin, School Director**
